

Deeksha Gupta
Java Developer- Tata Consultancy Services
+971-529855859 | deeksha.gupta2@gmail.com

CAREER GOALS

To enhance my skills and unleash my potential as a Developer to make a contribution in the company through my skills, dedication and hard work.

ACHIEVEMENT

- Got nominated in 'Upcoming Talent' as developer in TCS Innovations 2018.
- Achieved 'Kudos' Java Developer award in TCS ILP.

EXPERIENCE

Tata Consultancy Services, Mumbai, India- System Engineer - Java Developer
February 2017 to Current

PROJECTS-

1) iON Digital Hub in TCS iON

- Developed and Handled the backend coding for TCS iON web pages using Java 6/7 and J2EE on Eclipse and other Java libraries.
- Used JDBC connection for MySql with Java for data updation, loading and iteration for the page.
- Wrote complex queries and code for data extraction, manipulation and audit.
- Iterated JSONObject and JSONArray in code for analysis and data derivation.
- Wrote code for generic-purpose classes and methods for file upload, download, file conversion and verification using InputStream, BufferedInputStream, Apache Tika libraries.
- Developed generic-purpose classes and method for creation of Workbooks(xls, xlsx) having multiple sheet, drop downs and other excel features from the map presented using Apache POI libraries. Also developed code to convert Workbook uploaded into map and handle the data provided.
- Coded for upload, verification and saving of macro, cvs, pdf files using Apache libraries.
- Wrote code to create 'Reports' using Datamart concepts, Queries and Java Language for admin use.
- Independently and well as collaborated with colleagues in development, design and implementation of software products using Java, J2EE, MYSQL, Servlets, JSON, Ajax.
- Troubleshooting production issues by identification of software bugs.
- Performed data loads and routine updates on an ongoing basis to provide verified Reports to admin.
- Handled a small team to complete the development of a new project using Java, J2EE, MySql; meeting the required deadline, taking all the decisions related to database, coding and overall flow.
- Please find a few links of TCS iON mentioned below.
